Why is it that most people are not living this full, best life?

People were created to be friends of God, but because we wanted to please ourselves, we chose to go our own way without God. Our friendship with God was spoiled. This going our own way means doing things that God does not want us to do or taking no interest in God. This is what the Bible calls sin.

Romans 6:23

This death is more than just our body dying – it means spiritual death – being kept a long way from God and not having any friendship with Him.

God is holy and good while people are sinful. The difference between God and people is so great it is like a great, deep valley keeping them a long way from each other. People are always trying to reach God and find the full, best life by doing things themselves, such as trying to be good, obeying the laws of the land and being kind to others. But people can never reach God by their own effort.

To accept Jesus Christ means to choose to go God's way instead of our own way, to trust Christ to come into our lives, to forgive our sins and make us what He wants us to be. It is not enough to agree in our minds that what God wants is true or to have special feelings of being happy or sad when we think about these things.
